

NatSol the remote toilet specialists

Introducing the **Compact Toilet**. A stand alone toilet for low use sites such as private gardens, summerhouses and occasionally used public sites which are regularly maintained.

- ✓ A small composting toilet for remote sites.
- ✓ No mains services required.
- ✓ No freezing risk.
- ✓ Robust urine separation.
- ✓ A waterless urinal for men can be provided.
- ✓ Alcohol gel dispenser recommended.
- ✓ Can be set up for wheelchair accessibility.
- ✓ Solid wastes removed for composting elsewhere on site.
- ✓ Urine diverted to soakaway in ground.
- ✓ No chemicals, no smells.
- ✓ Can be installed in a day in a suitably prepared building.
- ✓ No machinery required for installation.
